Using the Integrated Contractor Purchasing Team (ICPT) Basic Ordering Agreement (BOA)

Contract #: BOA-NREL-2021-10444

The U.S. Department of Energy's (DOE) Integrated Contractor Purchasing Team (ICPT) has established a Basic Ordering Agreement (BOA) to facilitate seamless connections between DOE's seventeen National Laboratories and the Management & Operating (M&O) Community, enabling them to collaborate with trusted partners for reliable staffing and services.

This BOA is utilized by procurement professionals throughout the DOE National Laboratory complex to streamline the ordering process for common items and services used by all national laboratories.

Scope Areas

Business and Project Management (BP) – Accounting, procurement, finance, training, project management, project controls, etc.

Communications and Outreach – Media for internal and external communications, social media management, technical writing and editing, conference support, videography, etc.

Engineering (EN) – Engineering, including drawing/design.

**Does not include developing software for cyber engineering functions.*

Information Technology (IT) – Programming in many specialized codes or product-specific languages, cybersecurity, software engineering, hardware support, software support, implementation, and system integration, etc.

Science & Technical (ST) – Specialized technical areas in both research and support. Types of workers include waste operations specialists, environmental specialists, researchers, radiation control technicians, research assistants, etc.

Advantages to the DOE Labs

Contract Flexibility

- Types
 - + Time and Materials
 - + Firm Fixed Pricing
 - + Hybrid Contract Options
- Custom Lengths
 - + Long-term
 - + Short-term
 - + Project-based

Easy to Procure

- No pre-defined LCATs or rates
 - + Adaptable to each Lab's unique needs
- Avoid time-consuming and costly RFP challenges
 - + Sole Source
 - + Limited competition
 - + Reduces mission delays
- Seamless, no cost to transition to Lab employee

Qualified Support

- Pre-Vetted Partner
 - + Highly qualified industry leaders
- Low-risk, value-added services and resources with immediate transition
 - + Experienced Transition Manager
 - + Regular communication
 - + HR/Benefits
 - + Frequent meetings with customers to promote transparency
 - + Badge-less experience

Work with Edgewater

Founded in 2002, Edgewater has a long-standing record of excellence providing quality services, generating solutions, and contributing to the mission success of DOE, The National Laboratories, and Plants.

- 30+ contracts
- More than 550 employees
- Approximately 60% of all staff are Q or L cleared
- Leadership Team with Decades of DOE Experience
- Focused on program and mission support environments with demonstrated staffing success stories
