

NASA **SEWP VI**Solutions for
Enterprise-
Wide
Procurement**Contract Holder****SEWP OVERVIEW**

NASA SEWP (Solutions for Enterprise-Wide Procurement), pronounced "soup," provides Information Technology, Communication, and Audio-Visual (ITC/AV) solutions and services for Federal agencies and their approved contractors. Created in 1993, SEWP I was the first Government-Wide Acquisition Contract (GWAC) in the federal acquisition space. Originally, the contract vehicle provided only technology products for NASA and other agencies. SEWP has continually evolved over the past 30 years, expanding its scope to meet customer requirements. The SEWP vehicle represents acquisition innovation within the Federal Government. The program is self-funded through usage fees (0.34%) and provides acquisition support for more than 50,000 orders annually.

FAIR OPPORTUNITY

FAR 16.505(b)(1) provides that each contractor shall be given fair opportunity to be considered for each order exceeding \$10,000 and issued under multiple-award contracts. The FAR states that the method used to obtain fair opportunity is at the discretion of the Contracting Officer (CO), and that the CO must document the rationale for placement and price of each order. Using the SEWP online Quote Request Tool (QRT) is the recommended method to assist in this activity and augment the required decision documentation. The QRT automatically includes the appropriate Contract Holders within a selected Group or based on a suggested source.

ABOUT EDGEWATER

Edgewater Federal Solutions, Inc. helps Federal agencies solve complex mission challenges through innovative technology, cybersecurity, and professional services. With deep experience supporting federal customers, Edgewater delivers secure, scalable solutions that modernize operations, strengthen resilience, and drive mission success. WHAT'S IN SCOPE FOR SEWP VI?

SEWP is designed to provide a broad suite of Information Technology, Communication, and Audio Visual (ITC/AV) solutions and services. Technology is ever evolving, and for that reason SEWP processes enable Contract Holders to add new commercial technology and IT services to their contracts as requested by customers. The focus of SEWP is the full suite of technology offerings that simplify Government access to industry offerings across the entire ITC/AV solutions and services landscape. SEWP is composed of three (3) scope categories detailed below. If you would like SEWP to determine whether your requirement is within scope of the SEWP VI contract, please send an overview and/or bill of materials (BOM) to help@sewp.nasa.gov and the SEWP team will review and provide feedback.

The SEWP contracts were awarded by scope category. The three categories are:

- Category A – ITC/AV Solutions
- Category B – Enterprise-Wide ITC/AV Service Solutions
- Category C – Mission-Based ITC/AV Service Solutions

ORDERING PROCESS

The internal ordering process of each agency varies. The process and accompanying forms for Purchase Requests (PRs) and Delivery Orders (DOs) that are issued against a SEWP contract are defined by the issuing agency, not the NASA SEWP Program Management Office (PMO).

The typical process begins when an end user identifies a requirement and generates a Purchase Request (PR). The PR, along with any necessary funding information, is sent to the agency's procurement office, which results in the issuance of a Delivery Order (DO). Any valid Federal agency Delivery Order form and the associated Delivery Order number may be used.

The NASA SEWP Program Management Office (PMO) does not issue Delivery Orders. These must be issued through the issuing agency's procurement office. The SEWP PMO reviews, processes, and tracks issued Delivery Orders and forwards them to the appropriate Contract Holder.

Some agencies have special requirements for issuing IT Delivery Orders. It is the issuing agency Contracting Officer's responsibility to be aware of any agency-specific policies regarding issuing orders via an existing contract vehicle and Government-Wide Acquisition Contracts.

There are no requirements under the SEWP contracts for issuing agencies to use intermediary procurement offices except as directed through their own internal policies.

If modifications are made to any order, those modifications must also route through the SEWP Program Management Office (PMO).

ABOUT EDGEWATER AND SEWP VI

Edgewater Federal Solutions, Inc. provides technology solutions and services supporting Federal mission requirements. Through its NASA SEWP VI Category B contract, Edgewater provides Enterprise-Wide Information Technology, Communications, and Audio-Visual (ITC/AV) Service Solutions that help agencies modernize operations, improve mission delivery, and meet evolving technology requirements. Visit Edgewater at edgewaterit.com.

EDGEWATER CATEGORY B FOCUS AREAS

Edgewater's Category B contract supports enterprise-wide technology services that may include:

- Program Management Services
- Cybersecurity Services
- Cloud Services
- Data Analytics and AI Solutions
- Infrastructure and Operations
- Digital Modernization Services
- Mission Support Services

EDGEWATER ORDERING PROCESS

Federal agencies may use NASA SEWP VI to acquire eligible Information Technology, Communication, and Audio-Visual (ITC/AV) solutions and services through an established ordering process that begins with defining requirements and concludes with delivery, support, and ongoing contract management.

HOW TO OBTAIN A QUOTE

Federal agencies may request quotes for eligible services through Edgewater's NASA SEWP VI contract vehicle. For quote requests, contract information, or acquisition guidance, please contact **Ellen Appolonia**, SEWP Program Manager, at ellen.appolonia@edgewaterit.com or 301-514-9297, or **Ron Ford**, SEWP Deputy Program Manager, at ron.ford@edgewaterit.com or 636-297-5206. Customers may also email sewp@edgewaterit.com or submit a request through the contact form available on the [Edgewater NASA SEWP VI webpage](https://edgewaterit.com/nasa-sewp-vi).

ORDER ISSUES AND POST-DELIVERY SUPPORT

Edgewater provides support throughout the order lifecycle, including installation assistance, warranty support, technical support, software support, delivery status inquiries, troubleshooting, and post-delivery issue resolution. Customers requiring assistance with an existing order should provide their agency name, delivery order number, ordering activity, a description of the issue, and any relevant supporting documentation. For support, customers may contact **Ellen Appolonia**, SEWP Program Manager, at ellen.appolonia@edgewaterit.com or (301) 514-9297, or **Ron Ford**, SEWP Deputy Program Manager, at ron.ford@edgewaterit.com or (636) 297-5206. Customers may also submit inquiries through the dedicated SEWP mailbox at sewp@edgewaterit.com or submit a request through the contact form available on the [Edgewater NASA SEWP VI webpage](https://edgewaterit.com/nasa-sewp-vi).
